Sales Enablement and AI Adoption

Sales and AI enablement leader with 14 years at Cisco and John Deere. Lead nine direct reports supporting approximately 1,400 people. Bring frontline selling experience, Gong enablement, MEDDPICC deal qualification, and onboarding content ownership. Partner with product and engineering to make AI useful in seller workflows and connect adoption to business value.

Professional Experience

Cisco Systems | Research Triangle Park, NC | April 2018–Present

AI Enablement & Value Realization Lead | June 2026–Present

AI Strategy & Adoption Lead | August 2024–June 2026
Selected contributions across these functional assignments

- Built a nine-person enablement team around an internal customer success model. Defined the structure, hired and assigned staff, and established roles across high-touch adoption, scaled enablement, digital, and QA.
- Lead a team that owns Gong enablement, uses MEDDPICC for seller deal qualification, and owns automated AI onboarding. Created and maintained 90-day guides covering systems and role fundamentals for new sellers.
- Created the Four Phases of AI Value to assess activity, efficiency, capacity redeployment, and business impact. Across eight core AI workflows, September 2026 estimates averaged 2.5 hours saved per seller per week.
- Aligned sellers, product leaders, and engineering on priorities for AI-supported seller workflows. Defined customer value messaging for an AI proof of concept, connecting product usage with public company information.
- Partnered with the Recurring Revenue SVP on an AI Day with 900+ participants and practical use cases. Set direction for role-based adoption communications, global learning sessions, release readiness, and feedback loops.

Business Operations Manager, Global Renewals | April 2021–August 2024

- Created and led Global Software De-Risk, securing senior sponsorship and coordinating teams across organizational boundaries. Established processes reaching approximately 25,000 sellers and customer success professionals.
- Across four years, high-risk accounts selected for intervention renewed in the 70% range versus the 20% range for eligible accounts not selected. Selection prioritized higher annual recurring revenue.

Install Base Consultant Team Lead | January–May 2021
Renewals Manager | July 2019–January 2021

- Exceeded annual sales quota every year.

Education and Government Collaboration Specialist | April 2018–July 2019

- Exceeded annual sales quota every year.

John Deere | IT Manager, Manufacturing | June 2012–April 2018

- Managed 10 direct reports across multiple sites, supporting office and shop-floor technology for 1,600+ employees.

Education

Master’s, Corporate Innovation and Entrepreneurship | Penn State University | December 2022

BS, Information Systems | Western Illinois University | December 2011
